# Keeping Selah Students Safe

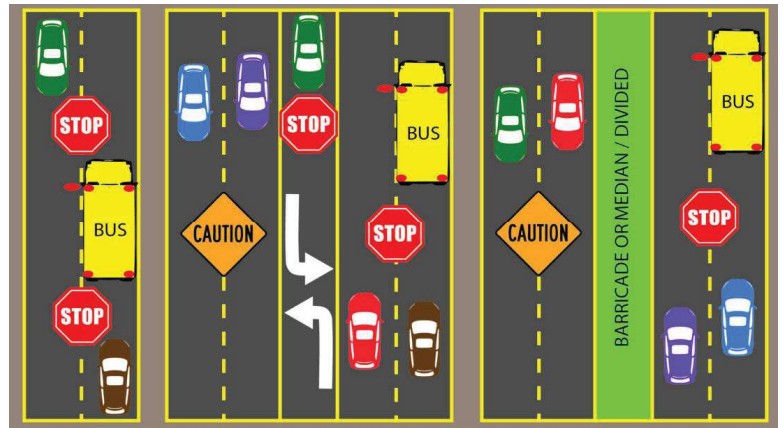

## A Look at Safe Walking Routes

If students don't ride a school bus, another safe transportation option for them is to follow the District's Safe Walk Routes. The safety of Selah students and kids in school zones is the District's top priority. Current safe walking routes have been developed based on traffic patterns and traffic control such as crosswalks, traffic lights, and safety patrol posts. To learn more about the District's safe walking routes for students and to access the established maps, please access the QR code at right.

## A Reminder of When to Stop for a School Bus

Student safety is the top priority of all school bus drivers. The law stipulates motorists must stop when the red paddle is extended. However, depending on the amount of lanes on a road, which direction a driver is traveling, and if dividers are present, determines which motorists need to stop. The basic idea is a bus only controls the lane it is in and the first lane to the left of the bus. Washington State law explains motorists must stop for a school bus that is stopped with its red lights flashing whether it is on your side of the road, the opposite side of the road, or at an intersection you are approaching. After the school bus red lights have stopped flashing, watch for children, and do not proceed until they have left the roadway. In Washington, motorists are not required to stop for a school bus with red lights flashing when the stopped bus is traveling in the opposite direction on the roadway and: has three or more marked traffic lanes, is separated by a median, or is separated by a physical barrier. **See diagram above.**

**TWO-LANE ROAD**  
All vehicles traveling in either direction must stop.

**THREE OR MORE LANES, OR TURN LANE IN MIDDLE**  
All vehicles traveling in the same direction must stop. Vehicles traveling in the opposite direction can proceed with caution.

**ROADWAY THAT IS DIVIDED / MEDIAN / ISLAND**  
All vehicles traveling in the same direction must stop. Vehicles traveling in the opposite direction can proceed with caution.

## For Safety, Let's All Share the Road!

As we begin a new year, school days bring congestion: School buses are picking up students, student drivers are heading to school, kids are on bikes, and parents are dropping off their kids. Now's time for a reminder that we can all safely share the road.

**Driving Safely for Selah Students!**

- Stop for the school bus.
- Watch for buses while they drop-off and pick-up kids.
- Be aware of children walking to and from bus stops.
- Expect increased traffic in school zones.
- Be aware of school pedestrian crossings.
- Be safe. Follow the speed limit laws in school zones. Be respectful of crossing guards. They are there for the safety of students.
- Don't be distracted. Slow down, pay attention and stay off cell phones.

### • Sharing the Road with School Buses

If you're driving behind a bus, allow a greater following distance than if you were driving behind a car. It allows for more time to stop. More precautions include:

- **It is illegal to pass a school bus from behind** if it is stopped to load or unload children.
- If the yellow or red lights are flashing and the stop arm is extended, **all traffic must stop.**
- The 10 feet area around a bus is the **most dangerous.** Stop far enough back to allow kids the space to safely enter and exit the bus.
- **Be alert.** Kids are unpredictable, and might ignore hazards and take risks.

**Red flashing lights on a school bus always mean stop! When stopping, always wait at least 20 feet behind the bus as children are getting on or off. Always stay stopped until the red lights stop flashing, the extended stop-arm is withdrawn, and the bus begins moving again.**

## • Sharing the Road With Pedestrians

According to the National Safety Council, most kids who are injured or lose their lives in home-to-school/school-to-home incidents are 4-to-7-years-old and walking to or from school. Remember the precautions that help keep children safe:

- Please **don't block the crosswalk** when stopped at a red light or waiting to make a turn, forcing pedestrians to go around you; this could put them in the path of moving traffic.
- When pedestrians are waiting to cross at an intersection, **stop and yield the right of way** with or without a crosswalk, with or without flashing beacons.
- Remember to **always stop** for a crossing guard holding up a stop sign.
- Take **extra care to look out for children** in school zones, near playgrounds and parks, and in all residential areas.
- **Don't honk your horn** to scare a pedestrian even if you think you have the right of way. This could make them move into oncoming traffic.
- **Never pass** a vehicle stopped for pedestrians, or use a two-way left turn lane to pass vehicles.

## Know the Law...

RCW 46.61.440 establishes a maximum speed limit of 20 mph (unless otherwise provided) within 300 ft. of any marked school or playground crosswalk when the crosswalk is fully posted with standard school or playground speed limit signs.

## Traffic Infraction...

Don't get caught speeding. The fine for a **school zone speed infraction is \$237.**

## • If You're Dropping Off/Picking-Up Students

Schools have specific drop-off/pick-up procedures. As a driver, please know them. Also, follow general safety:

- **Always stop** for a crossing guard holding up a stop sign.
- **Don't double park**; it blocks the visibility in seeing children and other vehicles.
- **Pull in to designated** school drop-off locations. Don't load or unload children across the street from the school.
- **Stay focused** on the school parking lot and arriving students. Don't get distracted by phone calls or texting.
- Think of **starting a carpool** to reduce the number of vehicles at the school.
