## As a Reminder...

### When to Stop for a School Bus

Student safety is the top priority of all school bus drivers. In fact, there has been increasing concern of school bus paddle violations even though the law stipulates motorists must stop when the red paddle is extended. However, depending on the amount of lanes on a road, which direction a driver is traveling, and if dividers are present, determines which motorists need to stop. The basic idea is a bus only controls the lane it is in and the first lane to the left of the bus. Washington State law explains that motorists must stop for a school bus that is stopped with its red lights flashing whether it is on your side of the road, the opposite side of the road, or at an intersection you are approaching. After the school bus red lights have stopped flashing, watch for children, and do not proceed until they have left the roadway. In Washington, motorists are not required to stop for a school bus with red lights flashing when the stopped bus is traveling in the opposite direction on the roadway and: has three or more marked traffic lanes, is separated by a median, or is separated by a physical barrier. See the diagram above.

**Two lane road:**  
Blue car stops,  
Green car stops

**Divided road:**  
Blue car stops,  
Green car goes

**Four lane road:**  
Blue car stops,  
Gray car stops  
Green car goes

**Please Remember to Review New COVID-19 Health Rules and How They Apply to Riding a School Bus.**
